

A unique experience!!! For those who do not know Rome, I'm sure they'll fall in love instantly. For those who already know it, you will have the opportunity to see Rome in a unique and truly special way. Giulio is a source of knowledge, patient, receptive, educated, considerate and very intelligent. It is easy to notice that he has love in his work. I'm not a photographer but if you have the least knowledge of photography you will love this tour even more. Worth the investment!!! It was very fruitful and fun.
